

## Nursery | 6 Weeks - 2 Years

In each nursery class, our goal is to create a peaceful atmosphere and care for your child's physical needs to give them a great first impression of their Heavenly Father. We also strive to help your child transition more easily into their preschool years.

# Top 5 Things You Need To Know

## 1 The Service Experience

Your child loves to learn new things. That's why each Passion Kidz service is jammed packed with amazing worship moments, interactive learning experiences, games and more! Our focus is to teach your child that God loves them. To provide the best possible experience to your child, we ask that you arrive no later than 15 minutes from the start of service. If you arrive 15 minutes after the beginning of the service, your child will be invited to sit with you in the main worship experience, or our parent viewing area. Children love to learn new things.

## 2 What to Bring

Anything you bring with you should be based on the age of the child. For example, our newborn to toddler age children may require a diaper bag, extra diaper, and bottles or sippy cup filled with formula, cow's milk, mother's milk, or water only. Avoid bringing personal items like toys or tablets. Due to allergies, food items are not allowed.

## 3 Diapers? Bathroom Breaks! We Can Help!

We encourage all parents to bring their child in a fresh diaper or take them to the bathroom before dropping them off to class. Outside of this, we make every effort to recognize any signals your child may make to let us know that a new diaper or bathroom break is needed. For the safety of your child, every class has at least two background-checked adult female volunteers to assist your child.

## 4 If We Need You, We'll Text You

If your child cries at drop-off or pick up, please don't be alarmed. This is a natural sign that your child had a bond with you. We also know that each child has a different temperament and will react differently to new environments. We will make every effort to care for your child personally; however, if we are unable to console them, we will text you.

## 5 Wellness

We care about the health of your child and the other kids too! Therefore, we ask that all kids who are experiencing a fever of 100.0 or above, vomiting, or have started taking an antibiotic within the last 24 hours not come to class on that day. We also ask that if your child is experiencing shortness of breath, cough, sore throat or has been exposed to anyone positively diagnosed with COVID-19, not come to class that day. Additionally, we thoroughly clean and disinfect all classroom items before and after each service.
